

Opening the Electronics Enclosure

- 1 For safety, switch off the power to your Handibot before touching any electronics.

- 2 Grab your trusty 4mm wrench from the back of the tool.

- 3 Remove the button head screw from the left, top side of the clear electronics enclosure.

- 4 Slide the electronics enclosure to the left.

- 5 Pull the electronics enclosure away from the tool.

- 6 You now have access to the FabMo Control Card and Interface Board of your Handibot.

- 7 If you need to access the power supply of your Handibot, start by removing the six screws on the back and side of the rear wall using your 4mm wrench

- 8 Continue by removing the two screws holding the bottom of the rear wall in place.

- 9 Pull back on the top of the rear wall to expose the power supply.

- 10 You now have access to the power supply for your Handibot.
